

Z-sol M60 (PS)

INCI Name

Zinc Oxide, Cyclopentasiloxane, Polyglyceryl-3 Polydimethylsiloxyethyl Dimethicone, Hydrogen Dimethicone

Description

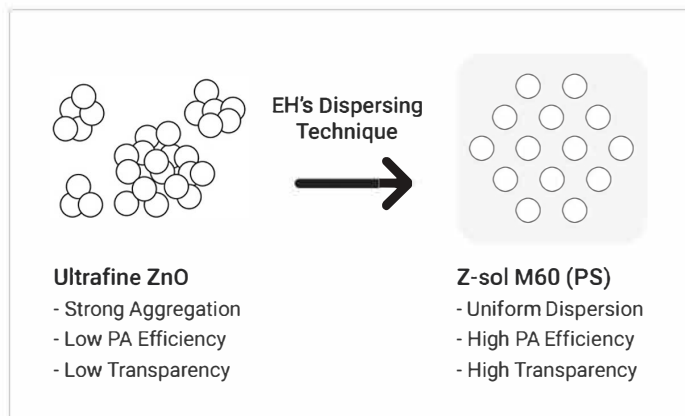

Z-sol M60 (PS) is PEG-free ZnO dispersion liquid designed for the best UV rays block effect by uniformly dispersing Hydrogen Dimethicone treated ultrafine ZnO with high transparency and good UV rays block effect in dispersion medium without PEG-based dispersant. Nano-siZed

Properties and Effects

- Excellent UV-block effect in UV-A field with uniform dispersion
- Excellent UV-block durability
- Enhanced skin feeling and texture
- Easy application with low viscosity
- Safe against harmful impact of 1,4-Dioxane by using PEG-free dispersant
